Sir:

In response to the Notice of Allowability dated August 14, 2007 kindly enter Applicants'

"Comments on the Statement of Reasons for Allowance" without prejudice as follows:

Comments on the Statement of Reasons for Allowance

Applicants acknowledge the Office's admission that the pending claims are patentable over the prior art. Applicants respectfully submit that while the specific features and relationships mentioned in the Statement of reasons for allowance are not disclosed or suggested in the prior art, these are not the only recited features and relationships which are not found in the prior art. Furthermore, the Statement refers to subject matter (or language) which is not recited in all of the claims. For example, not all claims require a first rail assembly including a rail, cap, and at least one spacer; or a first rail assembly and a second rail assembly that differ in size; or a second rail assembly; etc. Thus, not all claims require the features and relationships indicated in the Statement. The Statement also sometimes indicates a general paraphrasing of claim language, and not necessarily the exact claim language. It should be understood that the claims are to only be limited by that subject matter which is recited. Any remarks in the Statement which attempt to narrow the recited subject matter should be disregarded.

Respectfully submitted,
